Los Angeles, CA 90038

---

## EDUCATION:

**Bachelor of Arts University of North Texas**  
Radio / Television / Film [Denton, TX]

**August 1994 - August 2001**

**Udemy**

**January 2018 - Present**

Various classes ranging from full stack web development, JavaScript, PHP, CSS animations and Flexbox/Grids, to WordPress theme development and plugins.

## RELEVANT EXPERIENCE:

**Freelance Web Developer**

**November 2018 - Present**

**Divination Recordings** - Designed and Built a custom WordPress theme based [website](#) for an acquaintance. Wrote custom JavaScript, CSS, and HTML, as well as integrated third party plugins such as Custom Post Type UI and Advanced Custom Fields for several client updatable components. Also integrated Contact Form 7 with Mail Chimp. Long term plans also include adding a WooCommerce store once client finalizes merchandise. The site is making use of CSS Flexbox, CSS Grids, and also responsive design for mobile and tablet devices.

**Neptunian Influence** - Designed and Built a custom WordPress theme based [website](#) for some acquaintances. Wrote custom JavaScript, CSS, and HTML, as well as integrated third party plugins such as Custom Post Type UI and Advanced Custom Fields for a client updatable database. Also used Flow-Flow Social Media, Contact Form 7, and Mail Chimp integration. Made use of CSS Flexbox and also responsive design for mobile and tablet devices.

**Adult Karate** - Based on a design from an acquaintance, built a custom WordPress theme based [website](#). This was my first freelance project. Learned quite a bit about page layouts using CSS Grids and Flexbox. Used third party plugins such as Advanced Custom Fields, and Contact Form 7. Also implemented responsive design for mobile and tablet devices. Later built and added a [hidden](#) press page requested by, and designed by the client.

**Personal Projects**

**donaldjindra.com** - Currently working on my website's [upgrades and new features](#). This will eventually be another Custom WordPress theme. I'm utilizing custom JavaScript, CSS animations, CSS Flexbox, and HTML. This project is a work in progress and will continue to evolve.

**My JavaScript RPG** - This is a [JavaScript based RPG](#) I designed and built in the fall of 2018. It was my first attempt at making a game. I wrote it as a turn based single encounter game. I utilized custom JavaScript and CSS animations to make the game as enjoyable and interesting as I could.

## **OTHER EXPERIENCE:**

**National Research Group [Los Angeles, CA]**

**March 2019 - May 2019,  
March 2018 - May 2018**

### **Survey Programmer (Contract employee)**

Hired for short term assignment to help during critical period and assisted my former manager at Nielsen NRG. I used custom software developed at Nielsen to program surveys, and was also responsible for quality control and proofing surveys. Helped with quota system. Also responsible for encoding video media to custom specifications for online delivery using Adobe Premiere. Helped with custom script editing for senior developer because of my appetite for experience in web development.

**Nielsen TV Content [Los Angeles, CA]**

**July 2015 - December 2017**

### **Survey Programmer / Media specialist**

Used two different custom software platforms for survey programming which included basic HTML and CSS coding in software platform. I was responsible for quality control and proofing surveys. Used my personal passions and managed, edited, and encoded video media for projects using Adobe Premiere. Also managed and edited image files. Helped with custom script editing for senior developer because of my appetite for experience in web development.

**Nielsen NRG [Los Angeles, CA]**

**July 2003 - July 2015**

### **Survey Programmer / Media specialist**

I handled survey programming on custom built software as well as survey programming on vendor designed software for an in house call center. I used basic HTML and CSS coding in the software platforms. Was also responsible for quality control and proofing surveys on both systems. I was able to use my passion for media and handled various media requests including storage and editing of audio, video, and image materials. Acted as assistant to manager and helped manage small team of ten people when called upon as well as helped train new employees in the department. I also handled light IT duties.

**Nielsen NRG [Los Angeles, CA]**

**February 2002 - July 2003**

### **Quality Control**

I contacted participants of market research interviews and compiled information obtained from research for presentation to upper management. I verified the accuracy of data submitted by outsourced companies. I maintained and updated database of information collected. Collected and filed survey information in appropriate categories

## **SKILLS:**

Currently using HTML5, CSS, CSS Flexbox/Grids, JavaScript, WordPress, PHP, MySQL, Bootstrap. Learning React.js, Babel, Webpack, Redux. Have used jQuery, Node.js, NPM, Yarn, MongoDB, Git, Python. Proficient in various audio and video editing systems including Adobe Premiere, Adobe Audition, Sony Soundforge. Knowledge of DVD and Blu-Ray authoring. Knowledge of general audio, video, image file systems. Familiar with image editing application such as Adobe Premiere and Gimp. Proficient in multiple computer operating systems including Windows 10/8/7/XP, Mac OsX, and familiar with Linux Ubuntu.
